

# THE EMPRESS EXPRESS

VOLUME VIII. No. 36

EMPRESS, ALTA. THURSDAY, FEB. 24th, 1921

Price: \$2.00 Per Year

## United Church

2.30 p.m. Sunday school and adult bible class. Come and bring your children.

7.30 p.m.—Service. All welcome.

Choir practice on Friday night at residence of Mrs. H. H. Hall.

The death occurred, on February 18, at Mr. H. Tucker's farm, Social Plains, of John James Bell Fort Saskatchewan. Deceased was 59 years of age and death was due to heart failure caused by acute indigestion. The deceased was visiting Mr. Tucker on business and his death is much deplored in the district. The body was shipped to Fort Saskatchewan, on Monday, for burial.

## "The Minister's Bride," Entertainment by Local Talent

The ladies of the Union Church are presenting a comedy entitled, "The Minister's Bride." The production, which consists of four acts, will be staged at the Grand Theatre, Thursday, March 3. Fifteen characters are included in the cast. The time is of the year 1860, and the costumes, etc., of that period help in the creation of a very funny atmosphere. The sketch closes with a snappy program of songs and readings. It is confidently expected that the entertainment will be well patronized.

The Empress Express Ready phone list is now printed and for sale contains a list of 170 phone users in the districts of Empress and Kindred.

## Fire Brigade Re-organized

The fire bell was this week removed to and hung on top of the hotel. The reason given for this is that the person giving the alarm is generally the one most affected, and the bell is rung for only a short period. Now, on the fire alarm the bell will be rung by the night or day porter at the hotel for five minutes. It is also considered that the alarm will be more distinctly heard with the bell hung as at present.

The fire call on the phone will be 1 Long and 4 Short Rings. Immediately on receipt of this call at Central, members of the brigade will receive the same call on their phones, after which other residents phone users will be advised in the manner. No reply is necessary or will be received. New three equipment recently purchased consists of two trailers and two latest type gas motors.

W. C. Boyd, fire chief, has lately re-organized the fire brigade. The brigade consists of two crews; upon the absence of members of a crew, deputies will be present. The crews have been chosen from among business men as being the ones most interested.

Crew No. 1—G. M. Johns, Jr., asst. chief; J. I. Stuart, engine; E. L. McCub, nozzle; J. V. Saunders, hose and truck. No. 2—W. R. Bledie, asst.; M. A. Bledie, engine; B. Arthur, nozzle; J. B. Best, small engine; W. D. Dunn, hose and truck.

G. L. Turner, hose pump; J. C. Smith, Jr., hose pump operator; Hotel Fort Saskatchewan.

One practice was had recently, and the chief has experienced. A report will be made to the fire commission. The cooperation of all citizens in this important matter of fire protection is sought by the chief.

Mrs. R. S. Smith has received word from Mrs. H. H. Moore, of Kindred, who is now with her husband and family at the most, in a very good way. They are happy and well and hope to visit this week. Mrs. Smith and her family are very glad to hear this.

## Win Many Prizes

"Gentlemen: You will undoubtedly be interested to hear that our Company won first, fourth, fifth and sixth prizes in the Ideal Creamery Competition during the season, of 1920. This is a competition amongst all Creameries in the province for the best kept plant including buildings, equipment, cleanliness and tidiness, inside and outside. There are forty-seven given, and although we only had six plants in operation in 1920 we won four out of the six prizes, the winners being as follows:

Our Carnduff Plant, A. J. Jones, Manager, 1st prize.  
Maple Creek Plant, A. T. Harrison, Manager, 4th prize.  
Weyburn plant, D. C. Tierney, Manager, 5th prize.  
Moose Jaw Plant, R. W. Bourns, Manager, 6th prize.  
A total of 1000 points constitute perfection. Our Carnduff plant had a score of 858, Maple Creek 810, Weyburn 800, and Moose Jaw 768.

Yours very truly,  
THE SASKATCHEWAN CREAMERY CO., OF MOOSE JAW, LTD.

The Masquerade Dance this year promises a big reunion of old friends. We have received many enquiries re this big annual event. March 17 is the date.

RECONSTRUCTION is the order of the day. If you have formed the Savings habit you are prepared to meet its opportunities; if not, reconstruct your methods and begin today. We have a Savings Department at every Branch.

## Many Farmers Have Not Surrendered Wheat Certificates

"The books and records of the Canadian Wheat Board show that there are still a number of the Board's Participation Certificates outstanding and notwithstanding the fact that Participation Certificates should have been surrendered to the Board on or before the 31st December, 1920, producers and others still holding these Certificates are requested to immediately surrender same to the Board when consideration will be given to the matter of making payments thereon.

If you are aware of any producers holding these Certificates, will you kindly advise them accordingly.

Yours very truly,  
The Canadian Wheat Board,  
H. Teoley,  
Secretary."

## C.G.I.T.

The meeting of February 22, was held in the form of a sleigh riding and pop-corn party at the country home of Winnie Rowles. After the business meeting the girls popped corn and told stories and Miss Rivers explained to them the initiation ceremony. The roll was called after lunch in order that those present beside members might be acquainted with the girls. Three cheers were given for Mrs. Rowles, Mr. Houree the driver, and also some gentlemen who assisted in making the evening pleasant.

The meeting of March 1, will

## VANDYNE

The next regular meeting of the W.I. will be held at Mrs. J. Young's, on Thursday, March 3. The Empress View U.F.A. Local gave a splendid programme at Bryant School house on February 17.

The subject for debate was: "Resolved that the desire for happiness has a greater influence than any other motive." The judges decided in favor of the affirmative.

Numerous musical selections, recitations and a dialogue were also rendered.

Bonnie Brier U.F.A. Local is to give their programme at Bryant School on February 23.

W. R. Hendry, who was called away suddenly by the death of his mother returned on Sunday last. The community wishes to express their sympathy with Mr. Hendry in his late bereavement.

Mr. and Mrs. S. S. Cox called at J. Young's, on Wednesday evening.

The Junior U.F.A. Club, met at the home of Mrs. Hendry on Saturday, February 19, and report a very successful meeting. Reports say that they have some staunch debaters.

They intend to hold a concert and dance on March 18.

be held at the home of Myrtle Fountain. After the business meeting will be a prepared programme for the next three months.

## CURLER'S SUPPER

## Sweet Clover as a Soil Builder

(Published by request)  
There is nothing that will equal it. In this part of the state it will grow three crops

of hay 30 inches high thereby getting you from four to six tons of hay per acre according to the thickness of seedling. For pasture it has no equal. You can seed it in the late fall if you wish or the first thing in spring with winter rye and you will have better pasture early and late for it seems quicker in

# THE EMPRESS EXPRESS

# EMPRESS, ALTA.

spring and stays longer in leaf than any other plant. Thus the next year you have a crop of hay to cut June 1st and one again July 1st, or you may leave the second cutting and reap a good paying crop of seed in September.

As a soil builder it has no equal. The yearling roots average the calibre and length of a new lead pencil and are covered with nodules of nitrogen. That is what our land lacks most here and after you get a root system turned up like that your land will never blow no matter how dry and windy.

Five pounds per acre seeded in the fall and seven in the spring is recommended as it has a very hard shell and the frost will act a better scarifier than any machine will. You may seed it with an endgate seeder in the fall if you wish as it is an oily seed like other clover and needs little or no covering as the action of the weather will not hurt it during winter and in the spring it will be up as soon as you are.

Sweet clover is a biennial plant requiring reseeding every two years which makes it a very valuable crop for rotation. If you seed about 1.5 of your land with it each year you will soon have a farm that you won't have to seed twice, and often more, to get a paying crop. Seed can be bought for 35 cents a pound thereby costing only \$1.75 per acre for seed and you save one plowing as it grows better on hard ground in stubble than on plowed ground. The advantages of seedling in fall is that you have it out of the way in the spring and you will get a better germination.

Don't let people tell you that the white clover is better than the yellow, for it is not. The white is more stocky and woolier and does not produce near the leaves the yellow does, and will stock eat it. Well I should say so. Ask anyone who has it, and see what they say. In all the testing experimental stations have made the results is that Sweet Clover comes just as high in food constituents as any of the other clovers or alfalfa.

Some people seem to be pessimistic about it thinking they can't get rid of it once they get it. Well the trouble is in this country we don't often have anything to get rid of but if you seed it in the fall, or late as Christmas if you like all the seed will grow the next spring and you will be safe for two years. Then if you don't want to keep that field longer for clover plow it good and deep the next spring and you won't have any clover bothering you that year, for a new seedling will never get more than six inches above the ground the first year or for at least 12 months after planting. So you would be safe in taking off any annual crop and the land would be planted again before the clover would be anywhere in sight. If you want to keep the old clover field for pasture just die it good in the fall of the second year.

This clover is fast gaining a place this part of the state especially the semi-arid districts. It will stand more drought and produce a better crop than any other forage plant. The seed houses are doubling their supplies of Sweet Clover each year.

If there is anything I can do to promote its growth I would be more than pleased to do so. Yours for more Sweet Clover, FRANK HILBORN, in the North West Dakota Courier.

## Expects to Produce

## Satisfactory Rainfall

In reply to an inquiry from R. S. Stevens of Medicine Hat, U. R. Hatfield writes from Sierra Madre, California:

"Your favor of the 23rd ult. at hand and contents carefully noted."

"In reference to the one point of my contract which I have with the United Agricultural Association and which as you state is not quite clear; will say, the described clause is as it is so stated—'That the efforts through these demonstrations tend to contribute a 100 per cent. increase over and above the natural rainfall, and it is hereby understood and agreed that all rain falling from the 1st May, 1921, to the 1st day of August, 1921, in the above described district that said Hatfield through the efforts of his operations upon the atmosphere shall be given credit for one half of the precipitation that falls at uniform rate of \$1,000.00 per inch up to four inches or fraction thereof."

"I wish to state that your average rainfall is not taken into consideration at all for your seasons have been so dry and your rainfall has been so meagre that you have not even had your average during the past four years during months of May, June, July."

"The fact is that these operations produce an increase upon that which falls naturally. Whatever your natural rainfall is to be a 100 per cent. increase is the result and it is this increase that goes to produce a large yield of grain, on up to a bumper crop."

"My contract calls for the maximum of four-inches during this period, but I wish to state for the benefit of the United Farmers of Alberta that this amount will be far exceeded. Candidly I believe that with the powerful operations that are to be conducted this sum-

mer in your field that fully eight or ten inches will be forthcoming. I have conducted some remarkable operations throughout our Western States during the past fifteen years in some of the most arid sections of the country. But these operations that are to be conducted in Alberta this summer will be the most pronounced and convincing in the increased production of rainfall ever attempted by me"

## World Happenings Briefly Told

Germans declare the repatriation terms declared by the Allies as fantastic and impossible.

Lloyd George will visit Palestine in the spring, according to a report printed by the Evening Standard.

Galt police commissioners will cancel the services of a policeman who was called on.

Decline in wholesale prices is proceeding at the rate of about four per cent. per month from the peak.

Ontario milk producers have been organized for voluntarily reducing milk prices, contingent upon the war production rates.

More than 250,000 children in New York City receive only part-time instruction because school facilities are inadequate.

The first passenger liner to make the trip between Germany and the U.S. is expected to leave Hamburg for New York soon.

A bill introduced at Washington, would increase salaries of Senators and Representatives from \$7,500 to \$10,000 a year after March 4 next.

Emma Goldman, deported from the U.S. as an anarchist, is reported to have said she'd rather be in jail in the U.S. than free in Russia.

A hundred million dollars is the outside figure for reparations which the Dominion may expect from Germany, according to Ottawa dispatches.

One of the first duties of Rt. Hon. Winston Churchill as colonial secretary will be the selection of a successor to the Duke of Devonshire, as Governor-General of Canada.

Joseph Danerac, of Quebec, with an average of 96.56, was awarded the first prize in the all-Canada creamery butter competition held in connection with the Western Canada Annual Dairy Convention at Winnipeg.

Dr. J. C. Ferguson, financial adviser to the President of China, who has just arrived in Vancouver from the Orient, states that in the famine districts of China, people line the roads, and so weak to walk from food.

## Poor Outlook For Bolshevism in England

Efforts For World Revolution Not Regarded As Effective in Old Country.

Director of Communist propaganda in European countries met secretly in Bremen, Dec. 26, under the presidency of the commissar Eliazov of Moscow, for the purpose of reporting the progress of their efforts on behalf of world revolution, says the London Times. All the delegates entered Germany under assumed names and with false passports.

"Comrade France, an English delegate," the newspaper added, "reported 79 Communist district organizations in England with 20,000 members and 1,219 agents, most of the latter of whom are paid. He was pessimistic regarding the cause in England. He said that the Russian proletarian need not expect support from the English, but that the Communist outlook in Scotland, Ireland and Wales was brighter."

"France referred to Plymouth as the centre of liaison with French and United States naval people."

Reputation Reflected In 3 Days. South American Bolshevism is a new medicine in the treatment of some of the most serious ailments of the world. It is a new and effective remedy for rheumatism. It also cures in 1 to 3 days.

The oak is the most common tree in Northern United States.

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the value of this excellent medicine. But the mothers will speak for themselves, and in such a way as to leave no question of them. They act speedily and thoroughly, and the children are administered with great show improvement from the first dose.

Lloyd George Scolded Premier Lloyd George has been taken to task by some of his former Welsh constituents for playing golf on Sunday. The Congregational Church recently voted unanimously to protest against the example set by the Premier in seeking Sunday recreation.

Grocers Taking Less Profit On Many Lines

Red Rose Tea, People Make a Further Statement.

Some of our friends among the grocers, in speaking of our letter to the press on grocers' profits, have indicated that apparently it has been construed to mean that Red Rose Tea was the only article on which the grocer takes a smaller profit. It is not our intention to convey such an impression, as we know that most grocers sell well known brands at a profit. It is our intention to indicate that Red Rose Tea is the only article on which the grocer takes a smaller profit.

It was not our intention to convey such an impression, as we know that most grocers sell well known brands at a profit. It is our intention to indicate that Red Rose Tea is the only article on which the grocer takes a smaller profit.

## Canned Foods A Blessing

BY LORETTO C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

The canned food as we find it today is one of the important contributions to modern civilization. The trouble with most of us is that we have grown so used to taking the canned food for granted that we neglect to give it its praise.

"I'd be afraid."

"Once in a great while we do hear of unfortunate people made ill by indulging in some canned product. But careful investigation usually proves that either it was inferior quality or that it was food left in the can for so long it was spoiled."

"Once in a great while, we hear of folks made dangerously ill by a newly discovered bacteria causing food to become 'botulism.' But this poison happens to be present in canned food, it can be absolutely destroyed and the food made perfectly safe by boiling for ten minutes. The time to be counted from the time the food begins to boil."

Some folks complain of foods tasting "off." This is due to the fact that during the process of canning all foods lose a certain amount of oxygen. It is partly due to the fact that the oxygen that foods have their characteristic flavor. The oxygen, can, however, be restored by absorption.

Take a can of peas, for instance. After opening the can, turn the contents into a strainer and let the water run off. Rinse the peas with fresh cold running water. Spread the peas on a shallow dish and expose them to the fresh air for an hour. During this time they will become re-oxygenated.

When you wish to reheat, cover with fresh water in a saucepan, add a little salt and a very little sugar. Boil the peas a bit, and reheat, boil, if desired, gently, for ten minutes. Add butter and pepper or, drain the water and serve in a white sauce made by rubbing together two level tablespoons each of flour and butter and cooking this till it is a cream. Top of milk and half a teaspoon of salt and a few grains of pepper.

The use of canned foods with most of the canned vegetables, no "artificial" extends the vegetable, but increases the food value. Besides, it is a saving way as it saves extra milk, with all its wonderful properties, into the diet.

Of course, with corn, it would be wasteful indeed to drain off the corn milk. From corn, however, one can make so many delightful dishes. It can be so cheap just now.

Perhaps you will want to know how to prepare it in Creole style.

Turn a can of corn out to a dish and air it one hour or longer. Put a layer of corn in a baking dish, dredge it with flour, add a layer of finely chopped green pepper and then a little milk and seasoning. Continue the layers until all the corn is used. Sprinkle a thick layer of grated cheese over the top and bake in a moderate oven about half an hour.

You can use canned corn or lobster in salad or cocktail or for a dish and no one will ever suspect it is canned if you air it first. It is well to boil corn and lobster for ten minutes and then put it in air. Use only enough water to prevent burning and cover the top.

In this way no food wastes to amount to anything will be lost.

As a vermifuge an effective Preparation is Moline, Graves' Worm Terminator, and it can be given to the youngest child without fear of injury to the constitution.

For several years France was the only country producing blumum.

Heart Disease Relieved In 10 Minutes. The Agent's Remedy for the Heart gives relief in 10 minutes. It is a powerful remedy for heart disease, and it can be given to the youngest child without fear of injury to the constitution.

Not Too Much. Magistrate Fraser, of Niagara Falls, fined a Russian \$100 for carrying a revolver. This present offer of the revolver is to be adopted both toward native and foreign offenders in all municipalities. —Toronto Globe.

All men are ill, more or less, most of the time.

## A Farming Community First Before All Else the Dominion Must Be a Farming Country.

The census bureau of the United States announces that slightly more than half the population of the republic live in towns and cities. This in a country approximately the size of Canada, inhabited by more than a hundred million people, and whose national policy has aimed consistently and powerfully to coax the people off the land and live them in great industrial and commercial centres. It ought to be accepted as the normal and wholesome condition of things in Canada that the large majority of our people live upon farms, and thus for generations. Before all else the Dominion must be a farming country for many years, to come.—Edmonton Bulletin.

GOOD HEALTH AND GOOD SPIRITS Depend Upon the Condition of the Blood—Keep it Rich, Red and Pure.

When a doctor tells you that you are anemic, he simply means, in plain English, that your blood is poor. The blood is the life of the body, and it is not one that can easily pass into the blood. It is a delicate and complex system, and it is not one that can easily pass into the blood. It is a delicate and complex system, and it is not one that can easily pass into the blood.

## A Distinctive Coat of Moleskin

You can just tell by its heathery texture and soft feel, that it is going to do you good.

If I only had some Sloan's Liniment, I could tell you that it is going to do you good. And then when the rheumatic twinges subside—after hours of suffering—you again feel!

Don't do it—get a bottle of Sloan's Liniment. It is so easy to use and so effective. A sudden attack may come on a sudden, but Sloan's Liniment is always at hand for possible emergencies. You'll soon find warmth and relief in Sloan's, the liniment that penetrates into the muscles. Sloan's Liniment. Three sizes—35c, 70c, \$1.40.

(Made in Canada)

Sloan's Liniment (Pain Expeller)

Joys Walking to Palestine. So eager are certain classes of European Jews to get to Palestine, their new national home, that many are actually walking there from the Ukraine, drifting into the country via Constantinople, and Sir Alfred Domett, the Canadian consul, works in the British Cabinet, who has just left London for a visit to Palestine.

Time has Tested It—Dr. Thomas' Electric Oil has been on the market for over 50 years. It has proved a blessing to thousands of people in high labor throughout Canada and its excellence has carried its time beyond the seas. If it were sold in this form it would be a cheap liniment.

The trees most commonly found in Northern Manitoba are spruce, poplar, tamarack, birch and jack pine. The spruce, poplar and jack pine are the most valuable species for sawmill purposes.

Itching Piles. PAZO OINTMENT INSTANTLY RELIEVES ITCHING PILES and you can get relief sleep after the first application.

All druggists are authorized to refund the money if PAZO OINTMENT fails to cure any case of ITCHING, BLEEDING or PROTRUDING PILES. Cases of ordinary cases in 14 days.

It is guaranteed that PAZO OINTMENT will cure any case of ITCHING, BLEEDING or PROTRUDING PILES. Cases of ordinary cases in 14 days.

It is guaranteed that PAZO OINTMENT will cure any case of ITCHING, BLEEDING or PROTRUDING PILES. Cases of ordinary cases in 14 days.

## Keeps Baby's Skin Healthy

If every mother could only realize the danger which lurks in the neglect of chafing and skin irritations she would not take chances when using Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and velvety.

Dr. Chase's Ointment

W. N. U. 1354

AT EMPRESS, Thursday, Feb. 24

Wheat No 1, Nor. 1.62	Track Wheat	
Flax 1.43	Oats	.31
Barley	Rye	

Spring-like weather is again with us.

H. Carlson, of Bindless, is waiting in town.

Sleigh-riding has been very popular, locally, during the past week.

The regular business meeting of the I.O.D.E. will be held at the home of Mrs. Garnet Peters, Tuesday, March 1st.

The Curling Club are holding a business meeting and supper at the B.C. Cafe, on Friday evening at 9 p.m.

W. Crobble's rink won the final game in the Storey Cup for the W. Leach, rink and incidentally are holders of this trophy until the next bonspiel.

Born—To Mr. and Mrs. Russell McDonald, Calgary, Feb. 9, a daughter—still born.

F. Pawlak, has been visiting friends in the Kiosauko district the last week and looking up his stock there, he reports stock as being in good condition.

The trust thing that has been said about the condition of the world today is, that hard work is needed. The hardest thing to do today is to get people to improve conditions.

C. O. Groves, of Kenora, Ont. was the visitor on Tuesday of Mr. and Mrs. W. Hughes. Mr. Groves is a returned soldier and Mr. "Jim" Hughes, is in his employ at Kenora.

Thursday, March 17, is the date of the big fun festival.

Occupancy of the new local hospital premises, was made by the staff, on Tuesday, of this week.

F. D. Sparrow, is securing a good selection of costumes, for hire, for the annual masquerade.

Russell McDonald, of Calgary, was a visitor to Empress on Friday last. We are sorry to say that he reported his wife as being very sick.

H. P. Gregg, is attending a Convention of Insurance men at Victoria, B. C.

James Lamb and Elvin Palmquist, of Acme, who are charged with horse stealing, it is reported, have been arrested at Acme. These lads stayed overnight at Tinney's ranch about three weeks ago, and also left one of the stolen ponies at Purdy's ranch, south of Cavenish. Palmquist is only 15 years of age and Lamb was at liberty on a two-year's suspended sentence. Const. Paxton received advice of the pony at Purdy's ranch and advised headquarters; shortly afterwards the boys were arrested.

It mind knew mind what a great revolution there would be in our ideas of things. "Know thyself" is an old adage. Today we must pay more thought to knowing the other fellow.

#### Social Plains

Mr. and Mrs. Frank Lyons who were married on Friday 10, had a surprise in the form of a sharivari on Friday, February 11. Mr. Lyons intends to entertain his many friends to a dance in the Social Plains Schoolhouse.

Some people complain that they can't get time to do their work, there is so much social life in the vicinity, and most of

us like it that way. We don't have time to worry about what might have been done, we simply get ready for the next affair whatever it may be.

A number of the young people of this district surprised Mr. and Mrs. Percy Strom on Wednesday, February 9, and enjoyed a pleasant evening playing cards and dancing, all present enjoyed themselves immensely.

Miss Ida Tucker spent several days at the home of her grandmother, Mrs. Vaughan, Mr. Barney Prichard, spent several evenings in the vicinity about the same time, funny coincidence.

Expects to Produce Rainfall—cont. I wish to further say for the benefit of the United Farmers of Alberta that after four years of uncertainty and a deficiency of rainfall that this year through the operation of these demonstrations that results will come and that a rainfall

will occur that will be satisfactory."

"I am at present engaged in securing and arranging for these tests and will be ready to start north about April 10th."

"Should there be any information that you desire kindly inform me and the same will be forthcoming."

"With best wishes to you and the members of the United Farmers of Alberta, I am,

Respectfully,  
Signed, Chas. M. Hatfield,

#### NOTICE

NOTICE is hereby given that in accordance with the provisions of The Irrigation Act, the undersigned has filed the necessary memorial and plans required by Sections 13 and 15 of the said Act, with the Commissioner of Irrigation at Calgary, Alberta.

The applicant applies for the right to divert the limited and dirty water of the TRIN COLLEGE at a point on the South-west quarter of section 26, township 22, range 6, West of the 4th meridian for irrigation purposes and for the right to construct the necessary works, as shown by the memorial and plans filed, to enable the water so diverted to be used for the said irrigation purposes on the West half of said section 26.

DATED at Alton, Alta., this 24th day of February, 1921.  
C. B. HOWE, Applicant.
